A coil of wire wound around a soft iron or steel core forms the basis of what?

(Answer: An Electromagnet)

What software development hosting company has an Octocat for the logo?

(Answer: Github)

Initially the logo's designer Simon Oxley thought about calling his creation 'Octopuss' (combination of octopus and pussycat) to represent how complex code combines can create peculiar things.

Why does GitHub use a cat?

The Cat Logo

By that time the founders had acquired the image of a cat-headed octopus from its creator the graphic designer Simon Oxley to use it for their mascot logo. The character's name was Octopuss. GitHub renamed it to Octocat and registered the mascot and the new name.Jul 20, 2023
